Choosing White-Collar Crime Neal Shover,Andrew Hochstetler,2005-11-14 For more than three decades, rational-choice theory has reigned as the dominant approach both for interpreting crime and as underpinning for crime-control programs. Although it has been applied to an array of street crimes, white-collar crime and those who commit it have thus far received less attention. *Choosing White-Collar Crime* is a systematic application of rational-choice theory to problems of explaining and controlling white-collar crime. It distinguishes ordinary and upperworld white-collar crime and presents reasons theoretically for believing that both have increased substantially in recent decades. Reasons for the increase include the growing supply of white-collar lure and non-credible oversight. *Choosing White-Collar Crime* also examines criminal decision making by white-collar criminals and their criminal careers. The book concludes with reasons for believing that problems of white-collar crime will continue unchecked in the increasingly global economy and calls for strengthened citizen movements to rein in the increases.

Battling Pornography Carolyn Bronstein,2011-06-27 Pornography catapulted to the forefront of the American women's movement in the 1980s. In *Battling Pornography*, Carolyn Bronstein locates the origins of anti-pornography sentiment in the turbulent social and cultural history of the late 1960s and 1970s. Based on extensive original archival research, the book reveals that the seeds of the movement were planted by groups who protested the proliferation of advertisements, Hollywood films and other mainstream media that glorified sexual violence. Over time, feminist leaders redirected the emphasis from violence to pornography to leverage rhetorical power. *Battling Pornography* presents a fascinating account of the rise and fall of this significant American social movement and documents the contributions of influential activists on both sides of the

pornography debate, including some of the best-known American feminists.

Full Dark, No Stars Stephen King,2011-09-20 I believe there is another man inside every man, a stranger . . . writes Wilfred Leland James in the early pages of the riveting confession that makes up 1922, the first in this pitch-black quartet of mesmerizing tales from Stephen King. For James, that stranger is awakened when his wife, Arlette, proposes selling off the family homestead and moving to Omaha, setting in motion a gruesome train of murder and madness. In *Big Driver*, a cozy-mystery writer named Tess encounters the stranger along a back road in Massachusetts when she takes a shortcut home after a book-club engagement. Violated and left for dead, Tess plots a revenge that will bring her face-to-face with another stranger: the one inside herself. *Fair Extension*, the shortest of these tales, is perhaps the nastiest and certainly the funniest. Making a deal with the devil not only saves Dave Streeter from a fatal cancer but provides rich recompense for a lifetime of resentment. When her husband of more than twenty years is away on one of his business trips, Darcy Anderson looks for batteries in the garage. Her toe knocks up against a box under a worktable and she discovers the stranger inside her husband. It's a horrifying discovery, rendered with bristling intensity, and it definitively ends a good marriage. Like *Different Seasons* and *Four Past Midnight*, which generated such enduring films as *The Shawshank Redemption* and *Stand by Me*, *Full Dark, No Stars* proves Stephen King a master of the long story form.

A Tyrannous Eye Pearl Amelia McHaney, 2014-07-17 *A Tyrannous Eye: Eudora Welty's Nonfiction and Photographs* is the first book-length study of Eudora Welty's full range of achievements in nonfiction and photography. A preeminent Welty scholar, Pearl Amelia McHaney offers clear-eyed and complex assessments of Welty's journalism, book reviews, letters, essays, autobiography, and photographs. Each chapter focuses on one genre, filling in gaps left by previous books. With keen skills of observation, finely tuned senses, intellect, wit, awareness of audience, and modesty, Welty applied her genius in all that she did, holding a tough line on truth, breaking through "the veil of indifference to each other's presence, each other's wonder, each other's plight." McHaney's study brings critical attention to the under-evaluated genres of Welty's work and discusses the purposeful use of arguments, examples, and styles, demonstrating that Welty pursued her craft to a high standard across genres with a greater awareness of context than she admitted in her numerous interviews. Welty consistently dared new styles, new audiences, and new publishing venues in order to express her ideas to their fullest, always with readers in mind. It is "serious daring," as she wrote in *One Writer's Beginnings*, that makes for great writing. In "Place in Fiction," Welty asks, "How can you go out on a limb if you do not know your own tree? No art ever came out of not risking your neck. And risk—experiment—is a considerable part of the joy of doing."
